Members Absent: Joanne Cochran, Jan Collier, Angel Garcia, Amy Hicks, Jack Jones, Claudia Peet, Mike Ross, Shelly Schwartz, Dr. David Hoffmann

Topic	Discussion	Action
Welcome & Introductions	<p>Ann welcomed the group and thanked the Operations Departments at Summit, Franklin County Government and Keystone for all the work that goes into emergency weather planning.</p> <p>Ann opened the meeting with a question to the committee regarding how great physicians address social determinants of health with patients. Research suggests how much one can learn from asking questions related to social determinants of health such as “Are you warm enough?” “Do you have enough to eat?”</p>	
Review of Current Healthy Franklin County Goals and Outcomes	<p>Bob Whitmore began a review of the current Healthy Franklin County Goals and Outcomes by reviewing the mission and vision statements as well as HP2020 leading health indicators.</p> <p>Next, the Task Forces gave a brief synopsis of their activities.</p> <p>Mental Health Task Force – The main goal is working on depression and suicide. One of the recent projects is on-line QPR. The numerical goal is to reach 700 people. To date, they have achieved 10% of this goal, meeting all 4 indicators.</p> <p>Nutrition – Discussed some of the many nutrition initiatives in Franklin County such as working with Head Start on fruits and vegetables, nutritional curriculum in elementary schools, BOPIC gardens (running for 3 years). The task force did not receive as much data as hoped for regarding the education piece. They will revisit strategies for education.</p> <p>Access To Healthcare – The task force recently met to discuss ways to improve enrollment in healthcare. The group currently has 10 to 15 initiatives they are working on.</p> <p>Education – The education taskforce has been on hold. However, the goals are being met by the Community Education Coalition. Robin Harmon provided an update of these activities.</p> <p>Jose described some resistance within educational settings, and, that it is difficult to find schools willing to participate. The rate of high school graduates is going down in PA and there are fewer Franklin County youth enrolling in post-secondary education.</p>	
Review and discussion of the Updated 2015 CHNA Primary and	<p>The Committee broke into four groups to determine a prioritized list of 8 to 10 of the most important public health indicators based on the summary of health indicators in the Franklin County chart and the secondary data table of County Health Rankings.</p>

Secondary Data Summary Reports/ Identification and Prioritization of Initial Goals for 2015 HFC CHNA Plan	<p>The groups compared the lists they created for similarity of indicators. Common indicators included physical activity, nutrition, high blood pressure, poor quality drinking water, alcohol/substance abuse (heroin), mental health provider ratios, obesity, and secondary education/trade skills.</p> <p>The committee was then asked to choose which 6 indicators were most important to them personally and to rank them. This information was collected by Bob to use as a starting point for determining the 2015 initiatives.</p> <p>The information will be summarized and reported back to the group at the next meeting.</p> <p>The group was asked to review the report and to send additional comments, questions, or feedback to Ann or Bob.</p> <p>Ann discussed with the committee that in the future, Berwood will be doing a presentation on Ana-Baptist religiosity. The group unanimously welcomed this learning opportunity.</p>	
Waynesboro Health Fair	<p>Ann discussed the possibility of Healthy Franklin County having a table at the Waynesboro Health Fair and what pieces should be promoted or programs to include. There were no objections by the committee. Nickie provided fliers to the group and they will be emailed to them as well.</p>	
Next Meeting	<p>The committee decided that February 15, 2016 will be the next meeting date. The meeting will take place from 12:00 – 2:00 p.m. in the SHIC Conference Room.</p> <p>The HFC Summit Planning Subcommittee will meet on February 17, 2016 from 8:30 – 10:00 a.m. and will have a report to the Committee in March.</p>
