Topic	Discussion	Action
Welcome & Introductions	Ann welcomed everyone to the meeting and introduced Berwood Yost.	
Review of 2015 Franklin County CHNA Summary Report, Questions, Discussion	<p>Berwood advised the group that he has received feedback and questions regarding the report. Questions or feedback will be collected for another two weeks, after which he will begin answering questions and making revisions to the report.</p> <p>Berwood outlined the four major components in the report that drew his attention: 1) Obesity; 2) Mental Health; 3) Access to Care; and 4) Environmental issues (significant issues with water, air quality problems).</p> <p>He asked the committee for any questions or comments they had regarding these identifiers.</p> <p>Joanne Cochran discussed the prevalence of HIV and sexually transmitted diseases in the community, especially among young people. Given the recent focus of this issue in the schools and health care, it would be a great opportunity to make this part of the needs assessment.</p> <p>Shelly Schwartz discussed the comparison of data from previous reports and stressed the importance of community feedback regarding the issues in the report. He also suggested including positive feedback in the report about areas where Franklin County has done well or improved.</p> <p>Jack Jones also emphasized the importance of community feedback. He feels the four areas of concern identified are the same areas that have always been focused on, and there may be other important issues to consider.</p> <p>Berwood discussed with the committee that the report is a resource document. The Committee should prepare a summary report of the document outlining the issues as well as identifying positives.</p>	
Prioritization of CHNA Goals for 2015 Healthy Franklin County CHNA Plan	<p>Bob Whitmore presented the findings of priority items and ranking of the report data based on input from the four teams that met at the January 22, 2016 meeting, as well as the individual members' rankings.</p> <p>The committee discussed issues of concern including the large number of senior health care issues in the future, drug and alcohol addiction, education issues, radon issues, and the shortage of doctors.</p> <p>The list was narrowed to nutrition, access to care, mental health, obesity, physical inactivity, substance abuse, environmental issues, education, and</p>

	<p>economics. Many of these issues can be addressed by current task forces and collaboration with community partners.</p> <p>The next steps will be to bring ideas back to the group for a plan for the next three years, build a logic model, and an outcome measurement plan, with the goal being to raise community awareness of the issues.</p> <p>Ann announced that a Health Summit has tentatively been scheduled for April 26, 2016, at which time Berwood will present the report findings to the community. The final report will formally be released the last week of April. Venue locations were discussed as well as the possibility of having Career Tech students prepare healthy food at the event.</p>	
Waynesboro Health Fair	Ann reminded the Committee of the Waynesboro Hospital Health Fair on March 5. Healthy Franklin County will have a table at the health fair.	
Next Meeting	The next meeting will be held on Monday, March 21, 2016.
